## We are a provider of Management Consulting Business Solutions

**LPD... integrity, accountability, and reliability**

The **Lewis Price & Destiny Group JV** (The LPD Group) is an experienced provider of business and information solutions. We serve a wide range of industries that include Federal and State government, financial services, nonprofits, professional services, and information technology companies. Additionally, we provide medical staffing, staff augmentation, and other management consulting services.

### Core Competencies:

#### Business Solutions

We apply skillful and precise analysis to any type of business challenge to determine the most appropriate procedural or process solution to meet any legislative, executive, and legal mandate or program. Our specialty is providing organizations with systemic holistic business solutions that include infrastructure and staffing options, designing and implementing value-added processes and procedures, enhancing organizational efficiency and decision-making, and creating viable workflows to increase entity effectiveness with accountability.

#### Compliance Services

We have performed management, performance, and compliance reviews to ensure adherence to applicable Federal, state and local laws and regulations. We assess the control environment, develop an audit plan, and test the internal controls. Our reviews are a systematic and objective examination of systems, processes, and procedures to provide an independent assessment of the performance of a government organization, program, activity, or function, to yield information to improve public accountability as well as to facilitate decision-making by parties with responsibility to oversee or initiate corrective action. All services are performed in accordance with generally accepted auditing standards, and guidelines of the AICPA, FASAB, and GAGAS.

#### Accounting Services

Our Accounting services include account reconciliation, data analysis, data entry, account allocation and indirect rate development, budget support, preparation of pro forma statements, internal control development, and financial systems improvement and implementation. All of our services are conducted in accordance with AICPA, GAGAS, and OMB circulars and guidelines.

#### Information Technology

Destiny provides a full range of Information Technology (IT) solutions. We are experienced with designing, building, converting, managing, and supporting IT systems. We have in-depth experience in database design and data analysis for both operational systems (support the business process and capture the data related to the process) and business intelligence-decision support-knowledgebase systems (turns data into business information). Destiny has expertise in applications requiring online enrollment or registration, cloud services, electronic collections and payments.

#### Staff Augmentation

Destiny has experience in providing Accountants, CPAs, Financial Analysts, IT Experts, DBA, Systems Analysts, Management Analysts, Budget Analysts, Clinical Analysts, Administrative, Human Resources, Psychologists, Psychiatric Nurses, RN(s), Physicians, Physician Assistants, and other staff.
